11. For Healthcare Professionals	23. Website Navigation

Global Design System

URL: Applies to every page

PAGE DESIGN DIRECTION

This section sets the rules every page follows. The site must feel calm, clear and trustworthy. It is a healthcare service, not a shop. Design for people reading on a phone, often on a slow connection, and often in their second or third language.

Brand colours

SPECIFICATION

Token	Colour	Hex	Use
Navy		#0B2A5B	Headings, top navigation, footer, dark sections
Getmeds Blue		#1E9BD7	Links, icons, secondary buttons, highlights
Getmeds Green		#6BB33F	Primary buttons ("Request a Medicine"), success states
Pacific Teal		#2FB5A6	Middle of the brand gradient, tags
Care Pink		#E8508A	Oncology and patient-support accents only (from the Patient Guide). Use sparingly
Soft Mint		#EEF7F2	Light section backgrounds
Sky Tint		#F2F8FC	Alternate light section backgrounds, cards
Ink		#1B2B3A	Body text
Alert Red		#C62828	Emergency notices only

Brand gradient: 135°, #1E9BD7 → #2FB5A6 → #8BD66B. This matches the Getmeds Vanuatu-Pacific presentation style. Use it for hero backgrounds, the final CTA band and page headers. Never put body text directly on the brightest green end; add a navy overlay at 20–30% if needed.

Typography

SPECIFICATION

Element	Font	Desktop	Mobile	Notes
H1	Poppins 700	44px / 1.2	32px	One per page. Navy, or white on gradient
H2	Poppins 600	32px / 1.25	26px	Section titles

Element	Font	Desktop	Mobile	Notes
H3	Poppins 600	22px / 1.3	20px	Card and sub-section titles
Body	Inter 400	18px / 1.6	17px	Never below 16px. Max line length 70 characters
Small / captions	Inter 400	15px	14px	Disclaimers, form help text
Buttons	Inter 600	17px	17px	Sentence case, no all-caps

Use short paragraphs (maximum 3 sentences). Bold only key words, never whole paragraphs.

Layout and spacing

SPECIFICATION

- 12-column grid, max content width 1200px, 24px gutters on desktop, 16px side padding on mobile.
- Section vertical spacing: 96px desktop, 64px mobile.
- 8px spacing scale (8, 16, 24, 32, 48, 64, 96).
- Alternate section backgrounds: white → Soft Mint → white → Sky Tint. This helps readers see where one topic ends.
- Every page must work at 360px wide with no sideways scrolling.
- Border radius: 16px for cards, 12px for buttons and inputs.

Components

SPECIFICATION

Component	Instruction
Primary button	Green #6BB33F fill, white text, 52px tall, 12px radius. Hover: 8% darker. Always the main action ("Request a Medicine")
Secondary button	Navy 2px outline, navy text, same size. For "Call Us", "Learn more"
Phone button	On mobile, every "Call Us" button uses a <code>tel:+6785282543</code> link and a phone icon
Cards	White, 1px border #DCE6EE, 16px radius, soft shadow (0 4px 16px rgba(11,42,91,.06)), 24–32px padding, line icon at top in Getmeds Blue
Step list	Numbered circles (48px, green fill, white number) connected by a thin dotted line. Horizontal on desktop, vertical on mobile
Info box	Sky Tint background, 4px blue left border. For helpful notes
Safety box	Pale amber background #FFF6E5 with 4px amber #F2A900 left border and an info icon. For "speak to your doctor" notes
Emergency box	White background, 2px Alert Red border, red warning icon, bold heading. Only for emergency guidance
Accordion	For FAQs and long lists. Plus/minus icon on the right, 56px minimum tap height
Tables	Navy header row, light row dividers. On mobile, stack each row as a card

Component	Instruction
Trust strip	Row of 3–4 small icon + short text items, used under hero buttons

Icons, photography and illustration

SPECIFICATION

- **Icons:** one line-icon set only (for example Phosphor or Lucide), 2px stroke, Getmeds Blue. Suggested icons: pill bottle, syringe, prescription clipboard, thermometer (cold chain), boat/plane (Pacific), map pin, phone, shield-check (safety), calendar (cycle planning).
- **Photography:** real Ni-Vanuatu and Pacific people, Port Vila streets, the Golden Port building, the pharmacy team at work, medicine packs on clean shelves. Warm natural light. Show dignity and calm; never show people looking ill or distressed.
- **Avoid:** generic stock photos of Western hospitals, dramatic cancer imagery, needles close-up, pink-ribbon overload.
- **Pacific motif:** a subtle wave or island-line pattern at 5–8% opacity on gradient sections. Keep it quiet.
- Every image needs alt text in plain English.

Accessibility and performance

SPECIFICATION

- Colour contrast of at least 4.5:1 for text (WCAG AA). Check white text on the green end of the gradient.
- All interactive elements at least 48×48px on mobile.
- Visible focus outline (3px Getmeds Blue) for keyboard users.
- Images in WebP, lazy-loaded, under 200KB each. Page weight target under 1.5MB; many users are on mobile data.
- Language attribute `lang="en"`. Leave room in layouts for future Bislama and French versions (text can grow 30%).

Global header (all pages)

SPECIFICATION

- **Desktop:** logo left (Getmeds Vanuatu-Pacific), menu centre, green "Request a Medicine" button right, phone number in small text above the button.
- **Mobile:** logo left, phone icon and hamburger right. A sticky bottom bar with two buttons: "Request a Medicine" (green) and "Call" (navy outline).
- Header becomes sticky and compact (64px) after scrolling 100px.
- A thin top strip in Soft Mint: "Prescription required for all prescription medicines · Mon–Fri, 8am–5pm · +678 528 2543".

Home

SEO

SEO title	Getmeds Vanuatu — Cancer Medicines and Chemotherapy Pharmacy, Port Vila
Meta description	Getmeds Vanuatu helps patients and doctors get cancer medicines and other important medicines in Vanuatu and across the Pacific. Send a prescription to start.
H1	Important medicines, closer to home
Suggested H2 sections	Why Getmeds Vanuatu · Cancer and chemotherapy medicines · Named Patient Supply · What we supply · Across the Pacific · More affordable access · How it works · Who we serve
Primary keyword	Getmeds Vanuatu
Secondary keywords	chemotherapy Vanuatu, oncology medicines Vanuatu, chemotherapy pharmacy Pacific, medicines Pacific Islands
URL slug	/

PAGE DESIGN DIRECTION

The home page must answer three questions in the first screen: What is this? Can they help me? What do I do now? Keep the page scannable: each section is one idea with one action. Order: hero → trust strip → intro → why → oncology → Named Patient Supply → categories → Pacific → affordability → how it works → who we serve → professionals/patients split → safety → final CTA → footer.

Hero

DESIGN INSTRUCTION

- Full-width brand gradient background with a soft Pacific wave pattern.
- Left column (7/12): H1, supporting text, two buttons, trust strip. Right column (5/12): photo of a Getmeds pharmacist handing a medicine pack to a Pacific patient, rounded 24px corners.
- Mobile: photo moves below the text and is cropped to 4:3. Buttons full width, stacked.
- Height about 80% of the screen on desktop. No carousel or auto-sliding content.

WEBSITE COPY

Important medicines, closer to home

Getmeds Vanuatu supplies cancer medicines and other important medicines in Port Vila. We work with patients, doctors and hospitals in Vanuatu and across the Pacific. Send us a prescription and a pharmacist will check it and give you a price.

Primary button: Request a Medicine **Secondary button:** Talk to a Pharmacist

Trust strip: Prescription required · Pharmacist-checked · Based in Port Vila, Vanuatu · Serving the Pacific

Introduction

DESIGN INSTRUCTION

- White background. Centred text block, max width 760px.
- Small label above the H2 in Getmeds Blue caps: "ABOUT GETMEDS VANUATU".
- Add one small inline statistic chip beside the text: "83 islands. One pharmacy working to reach them."

WEBSITE COPY

Label: About Getmeds Vanuatu

A pharmacy built for cancer care in the Pacific

For many people in Vanuatu, getting cancer medicine has meant travelling overseas or waiting for someone to bring it back. Getmeds Vanuatu was set up to change that.

We are the first chemotherapy pharmacy in the Pacific. We keep cancer medicines in Port Vila, import them when needed, and source harder-to-find medicines for individual patients. We also supply medicines for diabetes, high blood pressure, heart disease and kidney care.

Link: More about us →

Why Getmeds

DESIGN INSTRUCTION

- Soft Mint background. Four cards in a row (2×2 on tablet, 1 column on mobile).
- Each card: blue line icon (pill bottle, shield-check, hand-coin, calendar), H3, one sentence.
- These four cards visually repeat the brand story: Available → Checked → Affordable → Ongoing.

WEBSITE COPY

Why Getmeds Vanuatu

Card	Text
Available	Many cancer medicines are kept in stock in Port Vila. Others can be imported or sourced for you.
Checked	A pharmacist checks every prescription before we supply anything.
More affordable	We work to make medicines more affordable to access, so fewer patients have to travel overseas for them.
Ongoing	We plan your next treatment cycle with you, so your medicine is ready when you need it.

Oncology feature

DESIGN INSTRUCTION

- The most important feature block on the page. White background, split layout: text left, image right.
- Image: calm photo of a medicine pack being prepared on a clean pharmacy bench, or the Patient Guide imagery (Pacific woman with head scarf, smiling).
- Use a small Care Pink accent line above the label. The three supply routes appear as three small pill-shaped tags (In stock / For import / Sourced on request).
- Button: primary green.

WEBSITE COPY

Label: Oncology and chemotherapy

Cancer and chemotherapy medicines

Cancer treatment often needs medicine in cycles, over many months. If one cycle is missed or late, treatment can be interrupted.

Getmeds Vanuatu supplies cancer medicines against a doctor's prescription or treatment protocol. We supply medicines in three ways:

- **In stock** — ready in Port Vila
- **For import** — ordered for you from our suppliers
- **Sourced on request** — found for you when a medicine is hard to get

Injectable chemotherapy is given at a hospital. We work with your treating team so the medicine is ready for your session.

Button: Learn about cancer medicines

Named Patient Supply

DESIGN INSTRUCTION

- Sky Tint background. Two columns: left, a simple 3-icon diagram (Doctor's prescription → Getmeds sources and imports → Medicine for one named patient). Right, the copy.
- Mobile: diagram becomes a vertical 3-step strip above the text.

WEBSITE COPY

Named Patient Supply

Sometimes a doctor prescribes a medicine that is not normally available in Vanuatu. Named Patient Supply is a way to get that medicine for one named patient, based on their prescription.

Getmeds helps the doctor and patient with the request, the paperwork and the import. Not every medicine can be supplied this way, and we will tell you clearly what is possible.

Link: How Named Patient Supply works →

Medicine categories

DESIGN INSTRUCTION

- White background. Grid of 8 category tiles (4×2 desktop, 2 columns mobile).
- Each tile: icon, category name, one line, arrow. The whole tile is clickable and links to the matching anchor on the Medicines page.
- Oncology tile is first and slightly highlighted (Care Pink top border).

WEBSITE COPY

What we supply

Tile	Line
Cancer medicines	Chemotherapy, hormone therapy and other cancer medicines
Blood disorders	Medicines for blood cancers and blood conditions
Supportive care	Medicines used alongside cancer treatment, such as anti-sickness medicine
Diabetes	Medicines and supplies for people living with diabetes
Heart and blood pressure	Medicines for high blood pressure, cholesterol and heart disease
Kidney and dialysis	Medicines used in kidney care and dialysis
Antibiotics	Medicines used to treat bacterial infections
Medical supplies	Single-use consumables, devices and equipment

Button: See all medicine groups

Pacific access

DESIGN INSTRUCTION

- Navy background section with white text.
- Right side: simple stylised map of the South Pacific, Vanuatu marked with a green pin and soft dotted lines to Solomon Islands, Fiji, Samoa, Tonga, Tuvalu and Nauru. Do not draw shipping routes or delivery claims; lines are decorative.
- Mobile: map goes above the text at reduced height.

WEBSITE COPY

Across the Pacific

Access to important medicines should not depend on where you live. From Port Vila, Getmeds is working to make medicines easier to reach across the Pacific Islands.

If you are a patient, doctor or hospital outside Vanuatu, contact us and we will tell you what we can do.

Link: Pacific access →

Affordability and access

DESIGN INSTRUCTION

- Soft Mint background. Left: large pull-quote style statement. Right: short text and button.
- Do not show prices or percentages. No "cheapest" or "lowest price" wording anywhere.

WEBSITE COPY

More affordable access

In Vanuatu, cancer and dialysis medicines are usually paid for by the patient. Travelling overseas for treatment can cost millions of vatu.

Getmeds works to lower these barriers. We give you a clear price before you commit to anything.

Button: How we keep access affordable

How it works

DESIGN INSTRUCTION

- White background. Five-step component (numbered green circles joined by a dotted line), horizontal on desktop, vertical on mobile.
- Each step: bold title, one short sentence. Primary button centred below.

WEBSITE COPY

How it works

1. **Contact us.** Call, message or use the online form.
2. **Send the prescription.** Share your doctor's prescription or treatment protocol.
3. **A pharmacist checks it.** We confirm the medicine, availability and price.
4. **Confirm and plan.** You agree to the price. We give you a pick-up date and plan your next cycle.
5. **Collect your medicine.** Pick up on the agreed date. Injectables go to your hospital for your session.

Button: Request a Medicine

Who we serve

DESIGN INSTRUCTION

- Sky Tint background. Five small icon cards in one row on desktop (scrollable row of cards on mobile, with visible edge of the next card).

WEBSITE COPY

Who we serve

- **Patients and families** — help getting the medicine your doctor prescribed
- **Doctors and oncologists** — a local source for cancer and specialist medicines
- **Hospitals and clinics** — supply for wards, clinics and treatment units
- **Pharmacies** — access to medicines you do not normally stock
- **Overseas treatment agencies** — medicine continuity for patients who return home

For healthcare professionals / For patients (split block)

DESIGN INSTRUCTION

- Two equal cards side by side (stacked on mobile). Left card navy with white text (professionals). Right card white with Care Pink accent (patients).
- Each card has its own button. This routes visitors to the right page quickly.

WEBSITE COPY

Left card — For doctors, hospitals and pharmacies

Send us a prescription, a treatment protocol or a product list. We will reply with availability and a quotation. Let us quote for your requirement.

Button: Healthcare Professional Enquiry

Right card — For patients and families

You do not need to know medical words to ask us for help. Send us your prescription and tell us how to reach you. A pharmacist will explain the next steps.

Button: Patient Enquiry

Trust and safety

DESIGN INSTRUCTION

- White background. Four short statements in a 2×2 grid with shield, clipboard, thermometer and pharmacist icons.
- Keep this factual. No badges or logos of organisations.

WEBSITE COPY

How we keep medicines safe

- **Prescription first.** Every prescription medicine needs a valid prescription.
- **Pharmacist-checked.** A pharmacist checks every order.
- **Only what was prescribed.** We supply exactly what your doctor prescribed.
- **Stored correctly.** Medicines that need cold storage are kept between 2 and 8 °C, monitored and logged.

Final CTA

DESIGN INSTRUCTION

- Full-width brand gradient band, centred text, two buttons (green primary, white outline secondary).
- Keep to one heading and one sentence.

WEBSITE COPY

Need a medicine? Start with your prescription.

Send it to us and a pharmacist will reply with what we can supply and the price.

Buttons: Request a Medicine · Call +678 528 2543

SEO

SEO title	About Getmeds Vanuatu — Medicine Access for Vanuatu and the Pacific
Meta description	Getmeds Vanuatu is a Port Vila pharmacy focused on cancer medicines. Learn why we started and how we help patients across the Pacific get the medicines they need.
H1	About Getmeds Vanuatu
Suggested H2 sections	Why we started · What we do · Our focus on cancer care · Medicines for one named patient · Our place in the Pacific · Part of the Getmeds group · Our team · What we want to achieve
Primary keyword	Getmeds Vanuatu
Secondary keywords	specialist medicines Vanuatu, medicine access Pacific, chemotherapy pharmacy Pacific
URL slug	/about

PAGE DESIGN DIRECTION

A story page. Use a narrow reading column (max 720px) with generous white space, broken up by full-width photo bands. The tone is human and calm. Readers should finish the page knowing why Getmeds exists and trusting the people behind it.

Hero

DESIGN INSTRUCTION

- Short hero (50% screen height) with a wide photo of Port Vila harbour or the Golden Port building, navy overlay at 40%, white H1 and intro.
- Breadcrumb above H1: Home > About.

WEBSITE COPY

About Getmeds Vanuatu

Getmeds Vanuatu is a pharmacy in Port Vila. Our main work is making cancer medicines available in Vanuatu and the Pacific. We also supply other important medicines and medical supplies.

Why we started

DESIGN INSTRUCTION

- White background, single column text.
- Add a simple 3-part visual timeline beside the text on desktop: "Diagnosis" → "Treatment overseas" → "Home, but no medicine". Grey for the problem stages.

WEBSITE COPY

Why we started

Cancer is a major health problem in Vanuatu. But for a long time, many cancer medicines were not available here.

Many patients were referred overseas for treatment. This can cost a family millions of vatu. When patients came home, some could not continue treatment because the medicine was not available locally. Others had to wait for someone to bring it from overseas.

When a treatment cycle is missed, treatment can fail. Getmeds Vanuatu was started so that patients can get their medicine here, on time.

What we do

DESIGN INSTRUCTION

- Soft Mint background. Two-column checklist with green check icons (one column on mobile).

WEBSITE COPY

What we do

- We supply cancer medicines against a doctor's prescription or treatment protocol.
- We keep medicines in stock in Port Vila.
- We import medicines that are not in stock.
- We source hard-to-find medicines for individual patients.
- We supply essential medicines, including antibiotics and medicines for diabetes, blood pressure, cholesterol, heart disease and kidney care.
- We supply medical consumables, devices, equipment and laboratory supplies.
- We offer simple blood pressure and blood sugar checks at our pharmacy.

Our focus on cancer care

DESIGN INSTRUCTION

- White background. Split: text left, photo right (pharmacist reviewing a prescription).
- Put the second paragraph in a Safety box style (pale amber) so the "we do not diagnose" message stands out.

WEBSITE COPY

Our focus on cancer care

Getmeds Vanuatu is the first chemotherapy pharmacy in the Pacific. Cancer medicines are our main specialisation.

We do not diagnose or treat cancer. That is the work of your doctor. Our job is to make sure the medicine your doctor prescribed is available, checked by a pharmacist and ready when you need it.

Named Patient Supply

DESIGN INSTRUCTION

- Sky Tint background, short text block with a text link. Keep to one paragraph.

WEBSITE COPY

Medicines for one named patient

Some medicines are not normally available in Vanuatu. Through Named Patient Supply, we help arrange a medicine for one named patient, based on their doctor's prescription. We handle the sourcing and paperwork and keep the patient and doctor informed.

Link: How Named Patient Supply works →

Our place in the Pacific

DESIGN INSTRUCTION

- Navy background, white text, small map illustration (same style as Home).
- Country names shown as small white outline tags.

WEBSITE COPY

Our place in the Pacific

Many Pacific Islands face the same problems: medicines that run out, high import costs for one patient, and long delivery times. From our base in Port Vila, we are working to build better medicine access across the region.

Tags: Solomon Islands · Fiji · Samoa · Tonga · Tuvalu · Nauru

Part of the Getmeds group

DESIGN INSTRUCTION

- White background, short paragraph with small flag-free icons (globe). Keep brief.

WEBSITE COPY

Part of the wider Getmeds group

Getmeds Vanuatu is part of the Getmeds group, which also operates in the Philippines and India. This connection helps us source a wide range of medicines for patients in the Pacific.

Our team

DESIGN INSTRUCTION

- Soft Mint background. Team photo (the Port Vila team in front of the pharmacy) full width with rounded corners, caption below.
- Individual profile cards can be added later: round photo, name, role.

WEBSITE COPY

Our team

Our team is based in Port Vila and knows the local community. A pharmacist checks every prescription we receive, and our staff follow each patient's order from enquiry to pick-up.

Photo caption: The Getmeds Vanuatu team at our pharmacy in Golden Port, Port Vila.

What we want to achieve

DESIGN INSTRUCTION

- White background, large centred text (22px) as a mission statement. Three short lines, each on its own row with a small green dot.

WEBSITE COPY

What we want to achieve

- Specialist medicines that are easier to get, wherever someone lives in the Pacific.
- Fewer patients missing a treatment cycle.
- Patients and doctors who always know what is available and what it costs.

CTA

DESIGN INSTRUCTION

- Brand gradient band, two buttons.

WEBSITE COPY

Oncology and Chemotherapy

URL: /oncology

SEO

SEO title	Chemotherapy and Cancer Medicines in Vanuatu — Getmeds Vanuatu
Meta description	Getmeds Vanuatu supplies chemotherapy and cancer medicines in Port Vila against a doctor's prescription. In stock, imported or sourced for each patient.
H1	Cancer and chemotherapy medicines in Vanuatu
Suggested H2 sections	Why local access matters · How we supply cancer medicines · Types of cancer medicine · Injectable chemotherapy · Planning each cycle · For doctors and hospitals · For patients · Across the Pacific
Primary keyword	chemotherapy Vanuatu
Secondary keywords	oncology medicines Vanuatu, chemotherapy pharmacy Pacific, cancer medicines Port Vila
URL slug	/oncology

PAGE DESIGN DIRECTION

The flagship page. It speaks to two readers at once: worried patients and families, and busy doctors. Use a warm, calm look with Care Pink accents (small lines, icons, tags) on top of the normal navy/blue/green system. Include a sticky in-page menu on desktop (left side) with anchor links to each section. Never use images of needles, IV drips close-up or sick-looking people.

Hero

DESIGN INSTRUCTION

- Brand gradient with a soft pink tint on the left edge. Left: text and buttons. Right: warm portrait photo of a Pacific woman in a head scarf smiling (Patient Guide style).
- Small pill tag above H1: "First chemotherapy pharmacy in the Pacific" (white outline).

WEBSITE COPY

Tag: First chemotherapy pharmacy in the Pacific

Cancer and chemotherapy medicines in Vanuatu

Getmeds Vanuatu is the first chemotherapy pharmacy in the Pacific. We supply cancer medicines in Port Vila, so patients can continue their treatment closer to home.

Buttons: Request a Cancer Medicine · Healthcare Professional Enquiry

Why local access matters

DESIGN INSTRUCTION

- White background. Text left; right side shows a simple circular "treatment cycle" diagram (Cycle 1 → 2 → 3 → 4) with one step greyed out labelled "missed cycle" to show the risk visually.

WEBSITE COPY

Why local access matters

Cancer treatment is often given in cycles. Each cycle needs the right medicine at the right time.

In the past, many patients in Vanuatu travelled overseas for treatment. When they came home, the medicine for their next cycle was often not available. Some waited for a traveller to bring it. Some missed cycles.

Having cancer medicines in Vanuatu helps patients stay on the schedule their doctor planned.

How we supply cancer medicines

DESIGN INSTRUCTION

- Soft Mint background. Four cards in a row (2×2 on tablet, stacked on mobile), each with an icon: shelf (In stock), plane (For import), search (Sourced on request), person-tag (Named Patient Supply).

WEBSITE COPY

How we supply cancer medicines

Route	What it means
In stock	The medicine is kept at our pharmacy in Port Vila.
For import	We order the medicine for you from our suppliers.
Sourced on request	We search for a medicine that is hard to find or often out of stock.
Named Patient Supply	We help arrange a medicine that is not normally available in Vanuatu, for one named patient.

Our pharmacist will tell you which route applies to your medicine and how long it may take.

Types of cancer medicine

DESIGN INSTRUCTION

- White background. List as 6 compact cards in a 3×2 grid, each with a small icon and one-line description. Add a Info box below: "We do not list every medicine online."

WEBSITE COPY

Types of cancer medicine we handle

We supply cancer medicines from first-line treatments through to more advanced medicines. They include:

- Chemotherapy** — given as an injection or drip in hospital, or as tablets at home

- **Hormone therapy** — medicines used for cancers that respond to hormones
- **Targeted and biological medicines** — newer medicines aimed at specific features of a cancer
- **Medicines for blood cancers** — used in cancers such as leukaemia, lymphoma and myeloma
- **Supportive care medicines** — medicines used alongside treatment, such as anti-sickness medicine
- **Single-use medical consumables** used during cancer treatment

Info box: We do not list every medicine on this website because stock changes. Please contact us to check a specific medicine.

Injectable chemotherapy

DESIGN INSTRUCTION

- Sky Tint background. Text with two hospital name tags (building icon) for Vila Central Hospital and Vanuatu Private Hospital.

WEBSITE COPY

Injectable chemotherapy

Some chemotherapy is given by injection or drip. These medicines must be given by trained staff in a hospital.

If your medicine is an injectable, we prepare the supply for your session. Your chemotherapy session takes place at **Vila Central Hospital** or **Vanuatu Private Hospital**, as arranged by your treating team.

Planning each cycle

DESIGN INSTRUCTION

- White background. Horizontal calendar-style illustration showing pick-up dates across cycles, with a green check on each. Four bullet points beside it with calendar, pharmacist, refresh and message icons.

WEBSITE COPY

Planning each treatment cycle

We do not just supply one order. We help you plan ahead.

- We give you a pick-up date for each cycle.
- A pharmacist explains how to handle your medicine.
- We plan your next cycle with you, so your medicine is ready on time.
- If your doctor changes your treatment, tell us and we will update your supply.

For doctors, oncologists and hospitals

DESIGN INSTRUCTION

- Navy card (full width, rounded) with white text and a green button. Visually separate from patient content.

WEBSITE COPY

For doctors, oncologists and hospitals

Send us the prescription or treatment protocol. Our pharmacist will confirm availability, supply route and price. We support single patients and ongoing supply to wards and clinics.

Button: Healthcare Professional Enquiry

For patients and families

DESIGN INSTRUCTION

- White card with Care Pink left border. Friendly, simple. Button in green.

WEBSITE COPY

For patients and families

You need a prescription or treatment protocol from your doctor. We can only supply the medicine your doctor prescribed. This keeps you safe.

If you are not sure what to send, call us. We will help you.

Button: Patient Enquiry

Across the Pacific

DESIGN INSTRUCTION

- Soft Mint background, short text with small map icon.

WEBSITE COPY

Cancer medicine access across the Pacific

Many Pacific Islands have the same gaps in cancer medicine supply. Getmeds is working to extend access from Vanuatu to other Pacific countries. Contact us to ask what is possible for your country.

Important note

DESIGN INSTRUCTION

- Safety box (pale amber) full width, directly above the final CTA.

WEBSITE COPY

Important: Getmeds Vanuatu supplies medicines. We do not diagnose cancer or choose treatment. Always follow the advice of your doctor or oncologist. Do not change a medicine, dose or schedule without speaking to them first.

Final CTA

DESIGN INSTRUCTION

- Brand gradient band, two buttons.

WEBSITE COPY

Ask about a cancer medicine

Send the prescription and we will check what we can supply.

SEO title	Medicines We Supply — Getmeds Vanuatu
Meta description	Cancer medicines, essential medicines and medical supplies from Getmeds Vanuatu in Port Vila. Prescription required. Contact us to check availability.
H1	Medicines we supply
Suggested H2 sections	How to check availability · Medicine groups · Medical supplies and devices · Can't see your medicine?
Primary keyword	medicines Vanuatu
Secondary keywords	specialist medicines Vanuatu, oncology medicines Vanuatu, medicines Pacific Islands
URL slug	/medicines

PAGE DESIGN DIRECTION

A reference page people will scan. Put a sticky filter bar under the hero with category chips (Cancer · Blood · Supportive care · Diabetes · Heart · Kidney · Antibiotics · More). Clicking a chip scrolls to that group. Each category is an expandable card: closed state shows name + one-line summary; open state shows the four details and the CTA. On mobile, all cards start closed. Do not show product photos or prices.

Hero and intro

DESIGN INSTRUCTION

- Short hero (40% height), Sky Tint background, H1 left and a small illustration of medicine boxes on a shelf on the right.
- Bold prescription line in a Safety box directly under the intro.

WEBSITE COPY

Medicines we supply

Getmeds Vanuatu supplies medicines across several medical areas. Cancer medicines are our main focus. We also supply essential medicines and medical supplies.

We list medicine groups, not every product. Stock changes, and we do not want to promise a medicine we cannot supply. Send us the prescription and a pharmacist will check it for you.

Prescription medicines need a valid prescription. Availability may vary.

How to check availability

DESIGN INSTRUCTION

- Three-step horizontal strip (small version of the step component) on white.

WEBSITE COPY

How to check if we can supply your medicine

1. Send us the medicine name and the prescription.
2. Our pharmacist checks availability, supply route and price.
3. We reply with the next steps.

Button: Request a Medicine

Medicine groups

DESIGN INSTRUCTION

- Soft Mint background. One expandable card per group in the order below. Oncology first with a Care Pink top border; others with a blue top border.
- Each card has an icon, the anchor ID shown below, and its CTA button inside.

WEBSITE COPY

Oncology (cancer medicines)

Anchor: /medicines#oncology

What it is: Medicines used to treat cancer, including chemotherapy.

What Getmeds provides: Cancer medicines in stock, for import, or sourced on request. This is our main specialisation.

Who may need this: These medicines may be used as part of treatment for people with cancer, as prescribed by their doctor or oncologist.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Enquire About Cancer Medicines

Haematology (blood disorders and blood cancers)

Anaemia

Anchor: /medicines#anaemia

What it is: Medicines used when the body does not have enough healthy red blood cells.

What Getmeds provides: Supply and sourcing of anaemia medicines, including those used in kidney care and during cancer treatment.

Who may need this: These medicines may be used as part of treatment for people with anaemia, including anaemia linked to kidney disease or chemotherapy.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Request Medicine Information

Supportive care in cancer treatment

Anchor: /medicines#supportive-care

What it is: Medicines that help with the side effects of cancer treatment, such as nausea, pain and mouth sores.

What Getmeds provides: Supportive medicines, including anti-sickness medicine in tablet and injection form.

Who may need this: People receiving chemotherapy or other cancer treatment, as prescribed by their treating team.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Request Medicine Information

Hormonal therapy

Anchor: /medicines#hormonal-therapy

What it is: Medicines that change the level or effect of hormones in the body. Some are used in cancer treatment.

What Getmeds provides: Supply and sourcing of hormonal therapies, including long-course medicines that need steady supply.

Who may need this: These medicines may be used as part of treatment for some breast and prostate cancers, and for thyroid and other hormone conditions.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Request Medicine Information

Diabetes

Anchor: /medicines#diabetes

What it is: Medicines and supplies used to manage blood sugar.

What Getmeds provides: Diabetes medicines, and devices and supplies for diabetes care. Simple blood sugar checks at our pharmacy.

Who may need this: These medicines may be used as part of treatment for people living with type 1 or type 2 diabetes.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Enquire About Medicines

Cardiology (heart, blood pressure and cholesterol)

Anchor: /medicines#cardiology

What it is: Medicines for the heart and blood vessels.

What Getmeds provides: Medicines for high blood pressure, high cholesterol and heart disease. Blood pressure devices and supplies. Simple blood pressure checks at our pharmacy.

Who may need this: These medicines may be used as part of treatment for people with high blood pressure, high cholesterol or heart disease.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Enquire About Medicines

Renal (kidney care and dialysis)

Anchor: /medicines#renal

What it is: Medicines used in kidney care, including for people on dialysis.

What Getmeds provides: Dialysis medicines and other kidney-care medicines, sourced and supplied on prescription.

Who may need this: These medicines may be used as part of treatment for people with kidney disease or on dialysis.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Enquire About Medicines

Bone health

Anchor: /medicines#bone-health

What it is: Medicines that help protect bone strength. Some are used for people with cancer that affects the bones.

What Getmeds provides: Supply and sourcing of bone health medicines.

Who may need this: These medicines may be used as part of treatment for people with weak bones or bone problems linked to cancer.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Request Medicine Information

Antibiotics

Anchor: /medicines#antibiotics

What it is: Medicines that treat infections caused by bacteria.

What Getmeds provides: Antibiotics, including broad-spectrum hospital antibiotics.

Who may need this: These medicines may be used to treat bacterial infections when prescribed by a doctor. Antibiotics do not treat colds or flu.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Enquire About Medicines

Pain management

Anchor: /medicines#pain-management

What it is: Medicines that help control pain, from everyday pain relief to stronger medicines.

What Getmeds provides: Supply and sourcing of pain medicines. Some pain medicines have extra prescription rules, which we follow.

Who may need this: People with pain, including pain linked to cancer or surgery, as prescribed by their doctor.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Request Medicine Information

Anti-inflammatory

Anchor: /medicines#anti-inflammatory

What it is: Medicines that reduce swelling and inflammation.

What Getmeds provides: Supply and sourcing of anti-inflammatory medicines.

Who may need this: These medicines may be used as part of treatment for conditions such as arthritis and gout.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Request Medicine Information

Allergy and respiratory

Anchor: /medicines#allergy-respiratory

What it is: Medicines and devices used to manage allergies and breathing conditions such as asthma.

What Getmeds provides: Allergy medicines, and devices and supplies for asthma care.

Who may need this: People with allergies or asthma, as advised by their doctor or pharmacist.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Request Medicine Information

Radiology and contrast media

Anchor: /medicines#radiology-contrast-media

What it is: Products used by hospitals and clinics during some scans and X-rays to help pictures show more clearly.

What Getmeds provides: Sourcing of contrast media for hospitals, clinics and imaging services.

Who may need this: Hospitals, clinics and imaging services. These products are used by trained staff only.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

CTA button: Healthcare Professional Enquiry

Everyday and over-the-counter medicines

Anchor: /medicines#everyday-medicines

What it is: Common medicines for the home, including some that do not need a prescription.

What Getmeds provides: Essential and over-the-counter medicines, including medicines for infants and children.

Who may need this: Families and individuals. Ask our pharmacist if you are not sure a medicine is right for you.

Access: Send us the medicine name and prescription. Our pharmacist will check availability and reply with the next steps. Availability may vary.

Named Patient Supply

URL: /named-patient-supply

SEO

SEO title	Named Patient Supply in Vanuatu — Getmeds Vanuatu
Meta description	Named Patient Supply helps a patient get a prescribed medicine that is not normally available in Vanuatu. Learn how it works and how Getmeds can help.
H1	Named Patient Supply
Suggested H2 sections	What it means · Why it exists · When it may be used · The prescription comes first · What we need · How it works · How Getmeds helps · What to expect
Primary keyword	Named Patient Supply
Secondary keywords	specialist medicines Vanuatu, medicine access Pacific, special order medicines Vanuatu
URL slug	/named-patient-supply

PAGE DESIGN DIRECTION

This page explains a new idea to people who have never heard of it. Make it feel simple: lots of white space, one idea per section, a clear diagram, and plain icons. Add a small "In simple words" summary box right under the hero so readers get the whole idea in 10 seconds.

Hero

DESIGN INSTRUCTION

- Sky Tint background. H1, one-line intro, two buttons. Right side: simple illustration of a prescription with a name tag attached to a medicine box.

WEBSITE COPY

Named Patient Supply

Getting a medicine that is not normally available in Vanuatu, for one named patient.

Buttons: Make a Named Patient Supply Enquiry · Call Us

In simple words

DESIGN INSTRUCTION

- Green-bordered summary box, larger text (20px), centred, max width 680px.

WEBSITE COPY

In simple words: If your doctor prescribes a medicine that Vanuatu does not normally have, Getmeds can try to bring it in just for you. We need your prescription. We tell you the price and time before you pay.

What it means

DESIGN INSTRUCTION

- White background, single column.

WEBSITE COPY

What does Named Patient Supply mean?

Some medicines are not usually sold or stocked in Vanuatu. A doctor may still decide a patient needs one of them.

Named Patient Supply means the medicine is ordered **for one patient, by name**, based on their doctor's prescription. It is not ordered for general sale.

Why it exists

DESIGN INSTRUCTION

- Soft Mint background, single column with a small island icon.

WEBSITE COPY

Why does it exist?

Vanuatu is a small market. Many specialist medicines, including many cancer medicines, are not kept in stock. Named Patient Supply gives patients a way to get the medicine their doctor prescribed, even when it is not normally available here.

When it may be used

DESIGN INSTRUCTION

- White background. Four bullet cards (2×2). Below them, an Info box with the "not every medicine" note.

WEBSITE COPY

When may it be used?

- When a medicine is not available in Vanuatu.
- When a medicine is often out of stock.
- When a patient returns from treatment overseas and needs to continue a medicine at home.
- When a doctor prescribes a specialist medicine for a serious condition.

Info box: Not every medicine can be supplied this way. Some medicines cannot be exported by the maker, or need papers that are not available. We will tell you honestly what is possible.

The prescription comes first

DESIGN INSTRUCTION

- Safety box (pale amber) with clipboard icon.

WEBSITE COPY

The prescription comes first

Every Named Patient Supply request needs a valid prescription or treatment protocol from the patient's doctor. For your safety, we only supply the medicine your doctor prescribed.

What we need

DESIGN INSTRUCTION

- White background. Checklist with document icons. Put the reassurance line in bold below the list.

WEBSITE COPY

What information do we need?

- The patient's full name and contact details
- The doctor's prescription or treatment protocol
- The medicine name, strength and amount
- The doctor's or hospital's name and contact details
- The date the medicine is needed (for example, the next treatment cycle)
- Any medical papers needed for the import approval

If you do not have everything, contact us anyway. We will tell you what is missing.

How it works

DESIGN INSTRUCTION

- Soft Mint background. Six-step component, horizontal on desktop (two rows of three), vertical on mobile.

WEBSITE COPY

How it works

1. **Enquiry.** The patient, doctor or hospital contacts Getmeds.
2. **Prescription check.** Our pharmacist reviews the prescription or protocol.
3. **Sourcing.** We find a supplier and check the paperwork needed.
4. **Quotation.** We tell you the price and expected timing before you commit.
5. **Approval and import.** We arrange the import approval and order the medicine.
6. **Supply.** The medicine is dispensed to the patient, or prepared for the hospital for injectable treatment.

How Getmeds helps

DESIGN INSTRUCTION

- White background, four icon cards in a row.

WEBSITE COPY

How Getmeds helps

- We work with the doctor to confirm what is needed.
- We handle sourcing and import paperwork.
- We keep the patient and doctor updated.
- We plan ahead for the next treatment cycle.

What to expect

DESIGN INSTRUCTION

- Sky Tint background, checklist with green ticks.

WEBSITE COPY

What patients can expect

- A clear answer about whether we can source the medicine.
- A price before you pay anything.
- An estimated time. This can be longer than for medicines we keep in stock.
- A pharmacist to explain how to take or handle your medicine.

CTA

DESIGN INSTRUCTION

- Brand gradient band, two buttons.

WEBSITE COPY

Ask about Named Patient Supply

Send us the prescription and we will check what is possible.

Buttons: Make a Named Patient Supply Enquiry · Contact Us

How It Works / Request a Medicine

URL: /how-it-works

SEO

SEO title	How to Request a Medicine — Getmeds Vanuatu
Meta description	Request a medicine from Getmeds Vanuatu in five simple steps. Send your prescription, a pharmacist checks it, and you get a clear price before you commit.
H1	How to request a medicine
Suggested H2 sections	Five steps · What to send · After your first order · For hospitals and clinics · Start your request
Primary keyword	order medicines Vanuatu
Secondary keywords	Getmeds Vanuatu, chemotherapy Vanuatu, medicine access Pacific
URL slug	/how-it-works

PAGE DESIGN DIRECTION

A practical page. The five steps are the whole page: make each step a large numbered block with an icon, the title, short text and (where useful) a checklist. Use a vertical timeline layout on all screen sizes with a green line joining the numbers. Place a sticky "Request a Medicine" button on the right side on desktop.

Hero

DESIGN INSTRUCTION

- White background, H1 and one-line intro, small trust strip (Pharmacist-checked · Price before you pay · Prescription required).

WEBSITE COPY

How to request a medicine

Five simple steps. A pharmacist checks every request. You see the price before you pay anything.

Step 1 — Contact Getmeds

DESIGN INSTRUCTION

- Numbered block "1" with phone/chat icon. Show the three contact options as small chips: Phone · Email / online form · Visit us.

WEBSITE COPY

Start your enquiry by phone, email, the online form, or in person at our pharmacy in Port Vila. Tell us your name, how to reach you and which medicine you need.

Step 2 — Provide the required information

DESIGN INSTRUCTION

- Numbered block "2" with clipboard icon. Checklist beneath, and a tip box: "A clear phone photo of the prescription is fine."

WEBSITE COPY

Send us the doctor's prescription or treatment protocol. A clear photo is fine. Depending on the medicine, we may also ask for:

- patient details
- the doctor's or hospital's details
- the date you need the medicine
- other medical papers, if needed for import

Step 3 — Availability is checked

DESIGN INSTRUCTION

- Numbered block "3" with pharmacist icon.

WEBSITE COPY

Our pharmacist checks the prescription, whether the medicine is in stock, and the price. If the medicine needs to be imported or specially ordered, we tell you and give you the earliest date we can.

Step 4 — Supply arrangements

DESIGN INSTRUCTION

- Numbered block "4" with calendar icon. Bullets with small calendar/pharmacist/refresh icons.

WEBSITE COPY

If you agree to the price, you confirm your order and pay. We then:

- give you a date to collect your medicine
- book time for a pharmacist to explain your medicine
- plan your next treatment cycle with you, where this applies

Timing depends on the medicine and where it comes from. We will not promise a date we cannot keep.

Step 5 — Medicine access

DESIGN INSTRUCTION

- Numbered block "5" with medicine-bag icon. Injectable note in an Info box with a hospital icon.

WEBSITE COPY

Collect your medicine on the agreed date in Port Vila, or ask us about delivery to your island. Every medicine is supplied through the proper prescription and regulatory process.

Info box: If your medicine is an injectable, it is given at the hospital. It is used at Vila Central Hospital or Vanuatu Private Hospital for your chemotherapy session, as arranged with your treating team.

After your first order

DESIGN INSTRUCTION

- Soft Mint band with a looping arrow icon.

WEBSITE COPY

After your first order

For ongoing treatment, we keep in touch before each cycle. If your doctor changes your medicine or dose, send us the new prescription and we will update your supply.

For hospitals, clinics and pharmacies

DESIGN INSTRUCTION

- Navy card, white text, secondary button.

WEBSITE COPY

For hospitals, clinics and pharmacies

Send your requirement or product list. We reply with a quotation. After you confirm, we source, receive and supply the order, and keep a full record.

Button: Request a Quotation

Start your request

DESIGN INSTRUCTION

- Brand gradient band, two buttons.

WEBSITE COPY

Start your request

Buttons: Request a Medicine · Call Us

Conditions (hub page)

URL: /conditions

SEO

SEO title	Conditions — Medicine Access by Condition — Getmeds Vanuatu
Meta description	Find information about medicine access for cancer, blood disorders, diabetes, heart, kidney and other conditions. Getmeds Vanuatu helps you check availability.
H1	Medicine access by condition
Suggested H2 sections	Cancers · Blood cancers and blood disorders · Anaemia · Side effects of cancer treatment · Hormone conditions · Diabetes · Heart and blood vessels · Kidney · Bone health · Infections · Joints and inflammation · Breathing and allergy
Primary keyword	medicines Vanuatu
Secondary keywords	cancer medicines Vanuatu, diabetes medicines Vanuatu, oncology medicines Vanuatu
URL slug	/conditions

PAGE DESIGN DIRECTION

A directory page. Top: H1, intro and a large search box ("Search a condition, for example breast cancer") that filters the list live. Below: condition groups as headed columns of links (3 columns desktop, 1 column mobile with accordions per group). Cancer groups come first. Each link goes to its condition page.

Hero and search

DESIGN INSTRUCTION

- Sky Tint background. H1, intro, search box (56px tall, magnifier icon, rounded). A-Z quick links under the search on desktop.

WEBSITE COPY

Medicine access by condition

Choose a condition to learn how Getmeds can help you access medicines. These pages give general information only. Your doctor decides which medicine is right for you.

Search placeholder: Search a condition, for example "breast cancer"

Condition list

DESIGN INSTRUCTION

- White background. Group headings in Poppins 600 with an icon each. Links in Getmeds Blue with a small arrow. Show the number of conditions in each group in grey.

WEBSITE COPY

Cancers: Breast cancer, Cervical cancer, Ovarian cancer, Uterine (womb) cancer, Prostate cancer, Colorectal (bowel) cancer, Stomach cancer, Liver cancer, Pancreatic cancer, Lung cancer, Head and neck cancer, Thyroid cancer, Bladder cancer, Kidney cancer, Skin cancer and melanoma, Bone and soft tissue sarcoma, Brain tumours, Childhood cancers

Blood cancers and blood disorders: Hodgkin lymphoma, Non-Hodgkin lymphoma, Acute leukaemia, Chronic myeloid leukaemia (CML), Chronic lymphocytic leukaemia (CLL), Multiple myeloma, Polycythaemia vera and essential thrombocythaemia, Low white blood cells after chemotherapy (neutropenia), Blood clots (thrombosis)

Anaemia: Iron deficiency anaemia, Anaemia in kidney disease, Anaemia during cancer treatment

Side effects of cancer treatment: Nausea and vomiting from chemotherapy, Cancer pain, Mouth sores from treatment (mucositis)

Hormone conditions: Underactive thyroid (hypothyroidism), Overactive thyroid (hyperthyroidism)

Diabetes: Type 1 diabetes, Type 2 diabetes

Heart and blood vessels: High blood pressure (hypertension), High cholesterol, Coronary heart disease, Heart failure

Kidney: Chronic kidney disease, Dialysis care

Bone health: Osteoporosis (weak bones), Cancer that has spread to the bone

Infections: Bacterial infections, Serious hospital infections, Urinary tract infection (UTI), Pneumonia

Joints and inflammation: Arthritis, Gout

Breathing and allergy: Asthma, Allergies and hay fever

Help block

DESIGN INSTRUCTION

- Soft Mint card with two buttons.

WEBSITE COPY

Can't find your condition?

We supply medicines for many more conditions. Send us your prescription and we will check what we can supply.

Buttons: Request a Medicine · Talk to Our Team

Condition pages (template and all 53 pages)

URL: /conditions/[condition-name]

SEO

SEO title pattern	[Condition] Medicines in Vanuatu — Getmeds Vanuatu
Meta description pattern	Information about access to medicines for [condition] in Vanuatu and the Pacific. Send your prescription to Getmeds Vanuatu to check availability.
H1	[Condition name]
Suggested H2 sections	What is [condition]? · How it is usually treated · How Getmeds can help · Related medicines · Named Patient Supply · Need a medicine for [condition]?
Primary keyword	[condition] medicines Vanuatu
Secondary keywords	[condition] treatment Pacific, Getmeds Vanuatu, the related category keyword
URL slug	/conditions/[slug] (listed on each page below)

PAGE DESIGN DIRECTION

All 53 condition pages use one template so they feel like one system. Layout: breadcrumb (Home > Conditions > [Condition]) → short hero with H1 and one-line summary → main column (8/12) with the sections below → right sidebar (4/12, sticky on desktop) containing a "Need this medicine?" card with the two buttons and phone number. On mobile the sidebar card moves to the end of the page and a sticky bottom bar shows the buttons. Cancer and blood condition pages use a small Care Pink accent; others use Getmeds Blue. No photos of illness; use one calm icon per page.

Template section order

DESIGN INSTRUCTION

- Each block is a separate H2 with 24px spacing between. The safety note uses the Safety box style. The CTA uses the brand gradient band.

WEBSITE COPY

- Condition name** (H1) and one-line summary
- What is [condition]?** — two or three plain sentences
- How it is usually treated** — general medicine context, no doses
- How Getmeds can help**
- Related medicine group** — tag links to the Medicines page anchors
- Named Patient Supply** — short line, linking to the Named Patient Supply page

7. **Important note** (same on every page, Safety box):

This page gives general information only. It is not medical advice. Please speak to a doctor, nurse or pharmacist about your own health. Do not start, stop or change a medicine without their advice.

8. **CTA** (same on every page, gradient band):

Need a medicine for [condition]? Getmeds may be able to assist with access to appropriate medicines for this condition. Contact the Getmeds team to check availability and supply requirements. **Buttons:** Request a Medicine · Talk to Our Team

Cancers

Breast cancer

URL: /conditions/breast-cancer · SEO title: Breast cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Breast cancer is a cancer that starts in the cells of the breast. It is more common in women, but men can also get it.

How it is usually treated: Treatment may include surgery, chemotherapy, hormone therapy, targeted medicines or radiotherapy. The plan depends on the type and stage of the cancer.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology · Hormonal therapy

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Cervical cancer

URL: /conditions/cervical-cancer · SEO title: Cervical cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Cervical cancer starts in the cervix, the lower part of the womb. Regular screening can find changes early.

How it is usually treated: Treatment may include surgery, radiotherapy and chemotherapy. Some patients are referred overseas for part of their treatment.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time. We also support patients who return home and need to continue treatment locally.

Related medicine group: Oncology · Supportive care

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Ovarian cancer

URL: /conditions/ovarian-cancer · SEO title: Ovarian cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Ovarian cancer starts in the ovaries, which are part of the female reproductive system.

How it is usually treated: Treatment usually includes surgery and chemotherapy. Some people also receive targeted medicines.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Uterine (womb) cancer

URL: /conditions/uterine-cancer · SEO title: Uterine (womb) cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Uterine cancer starts in the lining or muscle of the womb.

How it is usually treated: Treatment may include surgery, radiotherapy, chemotherapy or hormone therapy.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology · Hormonal therapy

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Prostate cancer

URL: /conditions/prostate-cancer · SEO title: Prostate cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Prostate cancer starts in the prostate, a small gland in men.

How it is usually treated: Treatment may include surgery, radiotherapy and hormone treatment. Some men need chemotherapy or newer medicines.

How Getmeds can help: We check and source prescribed medicines, including long-term hormone medicines that need regular supply.

Related medicine group: Oncology · Hormonal therapy

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Colorectal (bowel) cancer

URL: /conditions/colorectal-cancer · SEO title: Colorectal (bowel) cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Colorectal cancer starts in the large bowel (colon) or the back passage (rectum).

How it is usually treated: Treatment may include surgery and chemotherapy, given by drip or as tablets.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology · Supportive care

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Stomach cancer

URL: /conditions/stomach-cancer · SEO title: Stomach cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Stomach cancer starts in the lining of the stomach.

How it is usually treated: Treatment may include surgery and chemotherapy, sometimes before and after surgery.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Liver cancer

URL: /conditions/liver-cancer · SEO title: Liver cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Liver cancer starts in the cells of the liver. It is more common in people with long-term liver disease, such as hepatitis B.

How it is usually treated: Treatment depends on the stage and may include surgery, local treatments or medicines.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Pancreatic cancer

URL: /conditions/pancreatic-cancer · SEO title: Pancreatic cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Pancreatic cancer starts in the pancreas, an organ that helps with digestion and blood sugar.

How it is usually treated: Treatment may include surgery and chemotherapy. Supportive care for pain and digestion is also important.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology · Supportive care

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Lung cancer

URL: /conditions/lung-cancer · SEO title: Lung cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Lung cancer starts in the lungs. Smoking is the main cause, but people who have never smoked can also get it.

How it is usually treated: Treatment may include surgery, radiotherapy, chemotherapy, targeted medicines or immunotherapy.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Head and neck cancer

URL: /conditions/head-and-neck-cancer · SEO title: Head and neck cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Head and neck cancers start in the mouth, throat, voice box, nose or salivary glands. Tobacco and heavy alcohol use raise the risk.

How it is usually treated: Treatment may include surgery, radiotherapy and chemotherapy.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology · Supportive care

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Thyroid cancer

URL: /conditions/thyroid-cancer · SEO title: Thyroid cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Thyroid cancer starts in the thyroid, a gland in the front of the neck.

How it is usually treated: Treatment usually includes surgery. Many people then take thyroid hormone tablets for life.

How Getmeds can help: We supply prescribed medicines, including long-term thyroid hormone tablets.

Related medicine group: Oncology · Hormonal therapy

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Bladder cancer

URL: /conditions/bladder-cancer · SEO title: Bladder cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Bladder cancer starts in the lining of the bladder.

How it is usually treated: Treatment may include surgery, medicines placed into the bladder, chemotherapy or radiotherapy.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Kidney cancer

URL: /conditions/kidney-cancer · SEO title: Kidney cancer Medicines in Vanuatu — Getmeds Vanuatu

What is it? Kidney cancer starts in the kidneys, the organs that clean the blood.

How it is usually treated: Treatment is often surgery. Some people need targeted medicines or immunotherapy.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Skin cancer and melanoma

URL: /conditions/skin-cancer · SEO title: Skin cancer and melanoma Medicines in Vanuatu — Getmeds Vanuatu

What is it? Skin cancer starts in the cells of the skin. Melanoma is a more serious type.

How it is usually treated: Many skin cancers are removed by surgery. Advanced melanoma may need targeted medicines or immunotherapy.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Bone and soft tissue sarcoma

URL: /conditions/sarcoma · SEO title: Bone and soft tissue sarcoma Medicines in Vanuatu — Getmeds Vanuatu

What is it? Sarcomas are rare cancers that start in bone, muscle, fat or other soft tissues.

How it is usually treated: Treatment may include surgery, chemotherapy and radiotherapy, usually at a specialist centre.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Brain tumours

URL: /conditions/brain-tumours · SEO title: Brain tumours Medicines in Vanuatu — Getmeds Vanuatu

What is it? A brain tumour is a growth of cells in the brain. Some are cancer and some are not.

How it is usually treated: Treatment may include surgery, radiotherapy, chemotherapy and medicines to control swelling or seizures.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Oncology · Supportive care

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Childhood cancers

URL: /conditions/childhood-cancers · SEO title: Childhood cancers Medicines in Vanuatu — Getmeds Vanuatu

What is it? Children can get cancers such as leukaemia, lymphoma and some solid tumours. These are rare.

How it is usually treated: Treatment is planned by a children's cancer specialist and may include chemotherapy, surgery and radiotherapy.

How Getmeds can help: We work closely with the child's treating team to supply the prescribed medicines on time for each cycle.

Related medicine group: Oncology · Haematology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Blood cancers and blood disorders

Hodgkin lymphoma

URL: /conditions/hodgkin-lymphoma · SEO title: Hodgkin lymphoma Medicines in Vanuatu — Getmeds Vanuatu

What is it? A cancer of the lymph system, which is part of the body's defence against infection.

How it is usually treated: Usually a combination of chemotherapy medicines given in cycles.

How Getmeds can help: We supply and source blood cancer and haematology medicines against a prescription, and help arrange steady supply for long courses.

Related medicine group: Oncology · Haematology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Non-Hodgkin lymphoma

URL: /conditions/non-hodgkin-lymphoma · SEO title: Non-Hodgkin lymphoma Medicines in Vanuatu — Getmeds Vanuatu

What is it? A group of cancers of the lymph system. There are many different types.

How it is usually treated: Often combination chemotherapy. Some types also need targeted medicines.

How Getmeds can help: We supply and source blood cancer and haematology medicines against a prescription, and help arrange steady supply for long courses.

Related medicine group: Oncology · Haematology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Acute leukaemia

URL: /conditions/acute-leukaemia · SEO title: Acute leukaemia Medicines in Vanuatu — Getmeds Vanuatu

What is it? A fast-growing cancer of the blood and bone marrow. It needs urgent specialist treatment.

How it is usually treated: Intensive chemotherapy, usually in a specialist hospital.

How Getmeds can help: We supply and source blood cancer and haematology medicines against a prescription, and help arrange steady supply for long courses.

Related medicine group: Oncology · Haematology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Chronic myeloid leukaemia (CML)

URL: /conditions/chronic-myeloid-leukaemia · SEO title: Chronic myeloid leukaemia (CML) Medicines in Vanuatu — Getmeds Vanuatu

What is it? A slow-growing cancer of the blood and bone marrow.

How it is usually treated: Often tablets taken every day for a long time.

How Getmeds can help: Long-term medicines need steady supply. We help you plan ahead so you do not run out.

Related medicine group: Oncology · Haematology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Chronic lymphocytic leukaemia (CLL)

URL: /conditions/chronic-lymphocytic-leukaemia · SEO title: Chronic lymphocytic leukaemia (CLL) Medicines in Vanuatu — Getmeds Vanuatu

What is it? A slow-growing cancer of a type of white blood cell.

How it is usually treated: Some people need treatment straight away. Others are watched closely first. Treatment may include tablets or chemotherapy.

How Getmeds can help: We supply and source blood cancer and haematology medicines against a prescription, and help arrange steady supply for long courses.

Related medicine group: Oncology · Haematology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Multiple myeloma

URL: /conditions/multiple-myeloma · SEO title: Multiple myeloma Medicines in Vanuatu — Getmeds Vanuatu

What is it? A cancer of plasma cells, a type of cell in the bone marrow. It can affect the bones and kidneys.

How it is usually treated: Usually a combination of medicines. Bone-protecting medicines may also be used.

How Getmeds can help: We supply and source blood cancer and haematology medicines against a prescription, and help arrange steady supply for long courses.

Related medicine group: Oncology · Haematology · Bone health

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Polycythaemia vera and essential thrombocythaemia

URL: /conditions/myeloproliferative-disorders · SEO title: Polycythaemia vera and essential thrombocythaemia Medicines in Vanuatu — Getmeds Vanuatu

What is it? Rare blood disorders where the bone marrow makes too many blood cells.

How it is usually treated: Treatment aims to control blood counts and may include long-term tablets.

How Getmeds can help: We supply and source blood cancer and haematology medicines against a prescription, and help arrange steady supply for long courses.

Related medicine group: Haematology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Low white blood cells after chemotherapy (neutropenia)

URL: /conditions/neutropenia · SEO title: Low white blood cells after chemotherapy (neutropenia) Medicines in Vanuatu — Getmeds Vanuatu

What is it? Chemotherapy can lower the number of white blood cells that fight infection. This raises the risk of serious infection.

How it is usually treated: Doctors may prescribe injections that help the body make white cells, and antibiotics if infection occurs.

How Getmeds can help: We supply supportive injections and antibiotics against a prescription. If you have a fever during chemotherapy, go to hospital straight away.

Related medicine group: Supportive care · Haematology · Antibiotics

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Blood clots (thrombosis)

URL: /conditions/blood-clots · SEO title: Blood clots (thrombosis) Medicines in Vanuatu — Getmeds Vanuatu

What is it? A blood clot can block a vein or artery. People with cancer or after surgery are at higher risk.

How it is usually treated: Treatment usually includes blood-thinning medicines, as tablets or injections.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Haematology

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Anaemia

Iron deficiency anaemia

URL: /conditions/iron-deficiency-anaemia · SEO title: Iron deficiency anaemia Medicines in Vanuatu — Getmeds Vanuatu

What is it? The body does not have enough iron to make healthy red blood cells. People may feel tired and weak.

How it is usually treated: Treatment may include iron tablets or iron given by drip, and treating the cause.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Anaemia

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Anaemia in kidney disease

URL: /conditions/anaemia-kidney-disease · SEO title: Anaemia in kidney disease Medicines in Vanuatu — Getmeds Vanuatu

What is it? Damaged kidneys make less of a hormone the body needs to make red blood cells.

How it is usually treated: Treatment may include iron and injections that help the body make red blood cells.

How Getmeds can help: We supply prescribed anaemia medicines for people with kidney disease, including those on dialysis.

Related medicine group: Anaemia · Renal

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Anaemia during cancer treatment

URL: /conditions/anaemia-cancer-treatment · SEO title: Anaemia during cancer treatment Medicines in Vanuatu — Getmeds Vanuatu

What is it? Cancer and its treatment can lower red blood cells, causing tiredness and breathlessness.

How it is usually treated: Treatment depends on the cause and may include iron, other medicines or a blood transfusion.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Anaemia · Supportive care

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Side effects of cancer treatment

Nausea and vomiting from chemotherapy

URL: /conditions/chemotherapy-nausea · SEO title: Nausea and vomiting from chemotherapy Medicines in Vanuatu — Getmeds Vanuatu

What is it? Feeling sick or being sick is a common side effect of some cancer treatments.

How it is usually treated: Doctors often prescribe anti-sickness medicine before and after a chemotherapy session.

How Getmeds can help: We supply anti-sickness medicine in tablet and injection form, against a prescription.

Related medicine group: Supportive care

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Cancer pain

URL: /conditions/cancer-pain · SEO title: Cancer pain Medicines in Vanuatu — Getmeds Vanuatu

What is it? Cancer and its treatment can cause pain. Good pain control improves daily life.

How it is usually treated: Doctors use a step-by-step approach, from everyday pain relief to stronger medicines.

How Getmeds can help: We supply prescribed pain medicines and follow the extra rules that apply to stronger pain medicines.

Related medicine group: Pain management · Supportive care

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Mouth sores from treatment (mucositis)

URL: /conditions/mouth-sores · SEO title: Mouth sores from treatment (mucositis) Medicines in Vanuatu — Getmeds Vanuatu

What is it? Chemotherapy and radiotherapy can cause painful sores in the mouth and throat.

How it is usually treated: Care includes mouthwashes, gels, pain relief and good mouth hygiene.

How Getmeds can help: We supply mouth-care products and prescribed medicines. Our pharmacist can explain how to use them.

Related medicine group: Supportive care

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Hormone conditions

Underactive thyroid (hypothyroidism)

URL: /conditions/hypothyroidism · SEO title: Underactive thyroid (hypothyroidism) Medicines in Vanuatu — Getmeds Vanuatu

What is it? The thyroid gland does not make enough hormone. People may feel tired, cold and gain weight.

How it is usually treated: Usually a daily thyroid hormone tablet, with regular blood tests.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Hormonal therapy

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Overactive thyroid (hyperthyroidism)

URL: /conditions/hyperthyroidism · SEO title: Overactive thyroid (hyperthyroidism) Medicines in Vanuatu — Getmeds Vanuatu

What is it? The thyroid gland makes too much hormone. People may lose weight, feel anxious or have a fast heartbeat.

How it is usually treated: Treatment may include tablets that slow the thyroid, and other treatments chosen by a doctor.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Hormonal therapy

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Diabetes

Type 1 diabetes

URL: /conditions/type-1-diabetes · SEO title: Type 1 diabetes Medicines in Vanuatu — Getmeds Vanuatu

What is it? The body cannot make insulin, a hormone that controls blood sugar. It often starts in children or young adults.

How it is usually treated: People with type 1 diabetes need insulin every day, and regular blood sugar checks.

How Getmeds can help: We supply insulin and diabetes supplies on prescription, and offer simple blood sugar checks at our pharmacy.

Related medicine group: Diabetes

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Type 2 diabetes

URL: /conditions/type-2-diabetes · SEO title: Type 2 diabetes Medicines in Vanuatu — Getmeds Vanuatu

What is it? The body does not use insulin well, so blood sugar stays too high. It is common in the Pacific.

How it is usually treated: Healthy eating, activity, and often tablets or injections. Regular checks help prevent problems.

How Getmeds can help: We supply diabetes medicines, devices and supplies, and offer simple blood sugar checks at our pharmacy.

Related medicine group: Diabetes

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Heart and blood vessels

High blood pressure (hypertension)

URL: /conditions/high-blood-pressure · SEO title: High blood pressure (hypertension) Medicines in Vanuatu — Getmeds Vanuatu

What is it? Blood pushes too hard against the walls of the blood vessels. It often has no signs, so checking is important.

How it is usually treated: Lifestyle changes and, often, daily medicine.

How Getmeds can help: We supply blood pressure medicines and devices, and offer simple blood pressure checks at our pharmacy.

Related medicine group: Cardiology

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

High cholesterol

URL: /conditions/high-cholesterol · SEO title: High cholesterol Medicines in Vanuatu — Getmeds Vanuatu

What is it? Cholesterol is a fat in the blood. Too much can raise the risk of heart disease and stroke.

How it is usually treated: Healthy eating, activity and, for some people, daily medicine.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Cardiology

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Coronary heart disease

URL: /conditions/coronary-heart-disease · SEO title: Coronary heart disease Medicines in Vanuatu — Getmeds Vanuatu

What is it? The blood vessels that feed the heart become narrow. This can cause chest pain or a heart attack.

How it is usually treated: Treatment usually includes several long-term medicines and, for some people, a procedure.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Cardiology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Heart failure

URL: /conditions/heart-failure · SEO title: Heart failure Medicines in Vanuatu — Getmeds Vanuatu

What is it? The heart does not pump as well as it should. People may feel breathless and have swollen legs.

How it is usually treated: Treatment usually includes several daily medicines and regular check-ups.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Cardiology

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Kidney

Chronic kidney disease

URL: /conditions/chronic-kidney-disease · SEO title: Chronic kidney disease Medicines in Vanuatu — Getmeds Vanuatu

What is it? The kidneys slowly lose their ability to clean the blood. Diabetes and high blood pressure are common causes.

How it is usually treated: Treatment includes medicines to protect the kidneys, control blood pressure and manage complications.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Renal · Anaemia

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Dialysis care

URL: /conditions/dialysis · SEO title: Dialysis care Medicines in Vanuatu — Getmeds Vanuatu

What is it? Dialysis cleans the blood when the kidneys stop working. People on dialysis often need several regular medicines.

How it is usually treated: Medicines may include treatments for anaemia, bone health and blood pressure, alongside dialysis.

How Getmeds can help: We supply dialysis medicines against a prescription and help plan regular supply.

Related medicine group: Renal · Anaemia

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Bone health

Osteoporosis (weak bones)

URL: /conditions/osteoporosis · SEO title: Osteoporosis (weak bones) Medicines in Vanuatu — Getmeds Vanuatu

What is it? Bones become thin and weak, and break more easily. It is more common in older women.

How it is usually treated: Treatment may include calcium, vitamin D and medicines that strengthen bone.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Bone health

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Cancer that has spread to the bone

URL: /conditions/bone-metastases · SEO title: Cancer that has spread to the bone Medicines in Vanuatu — Getmeds Vanuatu

What is it? Some cancers can spread to the bones, causing pain and weak bones.

How it is usually treated: Treatment may include bone-protecting medicines, pain relief, radiotherapy and cancer treatment.

How Getmeds can help: We supply cancer medicines against your doctor's prescription or treatment protocol, and help plan each cycle so your medicine is ready on time.

Related medicine group: Bone health · Oncology · Pain management

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Infections

Bacterial infections

URL: /conditions/bacterial-infections · SEO title: Bacterial infections Medicines in Vanuatu — Getmeds Vanuatu

What is it? Infections caused by bacteria. They can affect many parts of the body.

How it is usually treated: Antibiotics chosen by a doctor. The full course should be taken as prescribed.

How Getmeds can help: We supply antibiotics against a prescription.

Related medicine group: Antibiotics

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Serious hospital infections

URL: /conditions/serious-infections · SEO title: Serious hospital infections Medicines in Vanuatu — Getmeds Vanuatu

What is it? Some infections are severe or do not respond to common antibiotics. They are treated in hospital.

How it is usually treated: Hospital doctors may use broad-spectrum antibiotics given by drip.

How Getmeds can help: We supply broad-spectrum hospital antibiotics to hospitals and clinics against a prescription.

Related medicine group: Antibiotics

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Urinary tract infection (UTI)

URL: /conditions/urinary-tract-infection · SEO title: Urinary tract infection (UTI) Medicines in Vanuatu — Getmeds Vanuatu

What is it? An infection in the bladder or kidneys. It can cause pain when passing urine.

How it is usually treated: Usually a short course of antibiotics prescribed by a doctor.

How Getmeds can help: We supply prescribed antibiotics. See a doctor if you have fever or back pain.

Related medicine group: Antibiotics

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Pneumonia

URL: /conditions/pneumonia · SEO title: Pneumonia Medicines in Vanuatu — Getmeds Vanuatu

What is it? An infection of the lungs that causes cough, fever and difficulty breathing.

How it is usually treated: Antibiotics chosen by a doctor. Severe cases need hospital care.

How Getmeds can help: We supply prescribed antibiotics to patients and hospitals.

Related medicine group: Antibiotics

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Joint and inflammation

Arthritis

URL: /conditions/arthritis · SEO title: Arthritis Medicines in Vanuatu — Getmeds Vanuatu

What is it? Arthritis causes pain, swelling and stiffness in the joints. There are several types, including osteoarthritis and rheumatoid arthritis.

How it is usually treated: Treatment may include pain relief, anti-inflammatory medicines, exercise and, for some types, specialist medicines.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Anti-inflammatory · Pain management

Named Patient Supply: May apply if a prescribed medicine is not normally available in Vanuatu.

Gout

URL: /conditions/gout · SEO title: Gout Medicines in Vanuatu — Getmeds Vanuatu

What is it? Gout causes sudden, painful swelling in a joint, often the big toe. It is linked to high uric acid in the blood.

How it is usually treated: Anti-inflammatory medicines for attacks, and long-term medicines to lower uric acid for some people.

How Getmeds can help: We supply prescribed medicines and help you plan refills so you do not run out.

Related medicine group: Anti-inflammatory · Pain management

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Breathing and allergy

Asthma

URL: /conditions/asthma · SEO title: Asthma Medicines in Vanuatu — Getmeds Vanuatu

What is it? Asthma is a long-term condition that makes the airways narrow. It can cause wheezing and shortness of breath.

How it is usually treated: Usually inhalers, used as the doctor advises. An asthma plan helps manage attacks.

How Getmeds can help: We supply asthma medicines, devices and supplies. Our pharmacist can show you how to use an inhaler.

Related medicine group: Allergy and respiratory

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Allergies and hay fever

URL: /conditions/allergies · SEO title: Allergies and hay fever Medicines in Vanuatu — Getmeds Vanuatu

What is it? Allergies happen when the body reacts to things such as dust, pollen or some foods. Signs include sneezing, itching and rash.

How it is usually treated: Allergy medicines such as antihistamines. Severe allergic reactions need emergency care.

How Getmeds can help: We supply allergy medicines. Our pharmacist can help you choose an over-the-counter option or refer you to a doctor.

Related medicine group: Allergy and respiratory

Named Patient Supply: Rarely needed, as many medicines for this condition are commonly available. Ask us about any medicine that is hard to find.

Pacific Islands Access

URL: /pacific-access

SEO

SEO title	Medicine Access Across the Pacific Islands — Getmeds Vanuatu
Meta description	From Port Vila, Getmeds Vanuatu is working to make cancer and specialist medicines easier to reach across the Pacific Islands. Enquiries from outside Vanuatu are welcome.
H1	Medicine access across the Pacific
Suggested H2 sections	Why it matters · Our base in Vanuatu · Growing access across the region · If you are outside Vanuatu · Coming home after treatment overseas
Primary keyword	medicines Pacific Islands
Secondary keywords	medicine access Pacific, chemotherapy pharmacy Pacific, affordable medicines Pacific
URL slug	/pacific-access

PAGE DESIGN DIRECTION

This page carries the Pacific story. Use the ocean side of the palette: deeper blues and teal, with a large stylised map as the hero visual. Keep the map simple (islands as soft shapes, Vanuatu pin in green, other countries as small navy pins). Copy blocks stay short. Add a country selector on the enquiry form link so the form opens with the country pre-filled.

Hero

DESIGN INSTRUCTION

- Full-width map illustration of the South-West Pacific on a deep blue-to-teal gradient. H1 and intro in white on the left over a subtle dark overlay.
- Mobile: map shrinks to a banner above the text.

WEBSITE COPY

Medicine access across the Pacific

Access to important medicines should not depend solely on where a patient lives.

Button: Pacific Enquiry

Why it matters

DESIGN INSTRUCTION

- White background. Four problem cards with grey icons (empty shelf, money, clock, calendar-x). A short line after the cards leads into the next section.

WEBSITE COPY

Why it matters

Many Pacific Islands face the same problems with medicines:

- Medicines run out.
- Importing a medicine for one patient can cost too much.
- Delivery takes a long time because of distance.
- Patients miss treatment cycles as a result.

These problems are hardest for people who need specialist medicines, such as cancer treatment.

Our base in Vanuatu

DESIGN INSTRUCTION

- Soft Mint background. Split: photo of Port Vila harbour left, text right. Include a small fact chip: "Vanuatu: 83 islands".

WEBSITE COPY

Our base in Vanuatu

Getmeds Vanuatu is based in Port Vila. From here, we supply cancer medicines and other important medicines to patients and healthcare providers across Vanuatu's 83 islands. Patients can collect in Port Vila, or ask us about delivery to their island. Medicines that need cold storage travel in monitored cold boxes.

Growing access across the region

DESIGN INSTRUCTION

- Navy background. Six country tiles (country name + small island icon, no flags) in a 3×2 grid. A short line of text above.

WEBSITE COPY

Growing access across the region

Getmeds is focused on expanding access to medicines across the Pacific. We welcome enquiries from patients and healthcare providers in:

Tiles: Solomon Islands · Fiji · Samoa · Tonga · Tuvalu · Nauru

Enquiries from other Pacific countries are also welcome.

If you are outside Vanuatu

DESIGN INSTRUCTION

- White background. Left: checklist of what to tell us. Right: Info box about import rules. Button below.

WEBSITE COPY

If you are outside Vanuatu

Patients, doctors, hospitals and pharmacies in other Pacific countries are welcome to contact us. Tell us:

- your country
- the medicine you need
- whether you are a patient or a healthcare provider

Info box: Import rules, paperwork and freight costs differ by country. We will explain these before you commit.

Button: Pacific Enquiry

Coming home after treatment overseas

DESIGN INSTRUCTION

- Sky Tint background. Illustration of a plane arriving at an island with a medicine bag. Warm tone.

WEBSITE COPY

Coming home after treatment overseas

Many Pacific patients go overseas for cancer treatment. When they return, they often need to continue medicines at home. We help plan local supply so treatment is not interrupted.

Please bring your prescription or treatment protocol from the overseas hospital.

CTA

DESIGN INSTRUCTION

- Brand gradient band, two buttons.

WEBSITE COPY

Buttons: Pacific Enquiry · Contact Us

Affordable Access to Medicines

URL: /affordable-access

SEO

SEO title	More Affordable Access to Medicines — Getmeds Vanuatu
Meta description	Getmeds Vanuatu works to reduce the barriers to important medicines in Vanuatu and the Pacific, with clear prices before you commit.
H1	More affordable access to medicines
Suggested H2 sections	The cost problem · How we help · How pricing works · Ask for a quotation
Primary keyword	affordable medicines Pacific
Secondary keywords	cancer medicine cost Vanuatu, medicine access Pacific
URL slug	/affordable-access

PAGE DESIGN DIRECTION

Keep this page honest and reassuring. No price tags, discount badges, percentage-off graphics or sale colours. Use calm blues and greens. The key visual is a simple comparison illustration: "Travel overseas for medicine" (plane, many costs) vs "Medicine available at home" (pharmacy, one clear price). Do not attach numbers to the Getmeds side.

Hero

DESIGN INSTRUCTION

- Soft Mint background, H1 and intro left, comparison illustration right.

WEBSITE COPY

More affordable access to medicines

Important medicines should be within reach. We work to lower the barriers.

The cost problem

DESIGN INSTRUCTION

- White background. Pull out "3 to 6 million vatu" as a large navy figure with a small caption, beside the paragraphs.

WEBSITE COPY

The cost problem

In Vanuatu, cancer and dialysis medicines are usually paid for by the patient. There is no national health insurance.

Many cancer patients are referred overseas. This can cost an estimated 3 to 6 million vatu per patient, before the cost of medicines and family support. The stress on families is also high.

Large figure caption: Estimated cost of overseas cancer referral per patient

How we help

DESIGN INSTRUCTION

- Sky Tint background. Five icon cards (home, search, calendar, receipt, speech bubble).

WEBSITE COPY

How we help

- **Local supply.** Having medicines in Vanuatu can reduce the need to travel for them.
- **Wide sourcing.** We compare sources to find more affordable options where possible.
- **Planning.** Planning each cycle ahead helps avoid costly urgent orders.
- **Clear prices.** We tell you the price before you commit.
- **Options.** If a medicine is very costly, we can talk with your doctor about available options. Your doctor decides the treatment.

How pricing works

DESIGN INSTRUCTION

- White background, single column, with an Info box for the last line.

WEBSITE COPY

How pricing works

We do not publish prices on this website. The price depends on the medicine, the strength, the amount and where it comes from. Import costs, freight and paperwork can also affect the price.

Info box: Send us the prescription and we will give you a clear quotation. You pay nothing until you agree.

CTA

DESIGN INSTRUCTION

- Brand gradient band.

WEBSITE COPY

Ask for a quotation

Buttons: Request a Quotation · Talk to Our Team

For Healthcare Professionals

URL: /healthcare-professionals

SEO

SEO title	For Doctors, Hospitals and Pharmacies — Getmeds Vanuatu
Meta description	Getmeds Vanuatu supplies cancer, specialist and essential medicines to doctors, hospitals, clinics and pharmacies in Vanuatu and the Pacific. Request a quotation.
H1	For healthcare professionals
Suggested H2 sections	Who we work with · What we supply · Oncology and chemotherapy supply · Named Patient Supply · How to submit a request · What you can expect
Primary keyword	oncology medicines Vanuatu
Secondary keywords	chemotherapy pharmacy Pacific, specialist medicines Vanuatu, Named Patient Supply
URL slug	/healthcare-professionals

PAGE DESIGN DIRECTION

A more professional, denser look than the patient pages: navy-led palette, tables allowed, fewer illustrations. Professionals scan for scope, process and contact. Put a "Request a Quotation" form preview (fields for facility, contact, product list upload) directly on this page, not only on Contact.

Hero

DESIGN INSTRUCTION

- Navy background, white text. Right side: photo of a pharmacist and a doctor reviewing a treatment protocol. Two buttons (green primary, white outline).

WEBSITE COPY

For healthcare professionals

A local source for cancer medicines, specialist medicines and medical supplies in Vanuatu and the Pacific. Let us quote for your requirement.

Buttons: Request a Quotation · Talk to Our Pharmacist

Who we work with

DESIGN INSTRUCTION

- White background. Table on desktop; on mobile each row becomes a card with the role as a heading.

WEBSITE COPY

Who we work with

You are	How we can help
Doctors and GPs	Check if a prescribed medicine is available and supply it to your patient
Oncologists and haematologists	Supply of cancer medicines by treatment protocol, cycle by cycle
Hospitals	Supply to wards and treatment units, including injectable chemotherapy
Clinics	Medicines, consumables and devices for your patients
Pharmacists and pharmacies	Access to medicines you do not normally stock
Procurement and purchasing teams	Quotations for medicines, supplies and equipment
Overseas treatment agencies	Local medicine supply for patients who return home to continue treatment

What we supply

DESIGN INSTRUCTION

- Soft Mint background, two-column bullet list with category icons.

WEBSITE COPY

What we supply

- Cancer medicines — our main specialisation
- Haematology, hormonal and supportive-care medicines
- Essential medicines, including antibiotics and cardiometabolic medicines
- Medicines for dialysis and heart disease
- Single-use medical consumables
- Medical devices, equipment, laboratory supplies and contrast media

We source a wide range of products through flexible procurement. Some items may be limited by freight costs or the availability of export documents. We will tell you early if this applies.

Oncology and chemotherapy supply

DESIGN INSTRUCTION

- White background, text left, small process graphic right (Protocol → Quote → Supply per cycle).

WEBSITE COPY

Oncology and chemotherapy supply

Send us the prescription or treatment protocol. We confirm which medicines are in stock, which must be imported and which must be sourced. We give you a quotation and a supply date for each cycle.

We also plan supply ahead for patients on long treatment courses, and update supply when a protocol changes.

Named Patient Supply

DESIGN INSTRUCTION

- Sky Tint card with text link.

WEBSITE COPY

Named Patient Supply

If your patient needs a medicine that is not normally available in Vanuatu, we help arrange it for that named patient. We handle sourcing, the import approval and the paperwork.

Link: [How Named Patient Supply works →](#)

How to submit a request

DESIGN INSTRUCTION

- White background. Five-step component plus the quotation form preview below it.
- Form fields: Facility name · Contact person · Role · Email · Phone · Country · Product list or protocol (upload) · Date needed · Notes · Submit: "Request a Quotation".

WEBSITE COPY

How to submit a request

1. Send the prescription, treatment protocol or product list by email or the form below.
2. Include the patient or facility name, quantities and the date needed.
3. Our pharmacist reviews the request.
4. We send a quotation with availability and timing.
5. You confirm the order. We source, receive, supply and record it.

What you can expect

DESIGN INSTRUCTION

- Navy background, three columns titled Availability, Assurance and Advantage (the Getmeds "3A" promise) with white icons; a fourth line for Partnership below.

WEBSITE COPY

What you can expect

Availability	Assurance	Advantage
A wide range of products, reliable availability, fewer stock-outs and fast order fulfilment	Consistent service, accurate orders, professional communication and reliable follow-up	Affordable or competitive prices, flexible solutions and long-term partnership

Label: Patient Guide

For patients and families

We help you get the medicine your doctor prescribed. You do not need to know medical words to ask us for help.

Buttons: Patient Enquiry · Call Us

What we do

DESIGN INSTRUCTION

- White background, short paragraph centred.

WEBSITE COPY

What we do

Getmeds Vanuatu is a pharmacy in Port Vila. We supply cancer medicines and other important medicines. If a medicine is not in stock, we can often import or source it for you.

How to ask for help (Patient Guide steps)

DESIGN INSTRUCTION

- Brand gradient section. Five white rounded cards, each with a Care Pink numbered circle (01–05) and a pink tab-style title, exactly like the printed Patient Guide. Vertical on all screen sizes.

WEBSITE COPY

How to ask for help

1. **Register.** Share your basic details so we can understand your situation and give the right support for your treatment journey.
2. **Share your prescription or treatment protocol.** Cancer medicines must follow a doctor's prescription or treatment protocol. For your safety, we only supply medicines that match what your doctor prescribed.
3. **Pharmacy check.** Our pharmacist checks your prescription, medicine availability and price, and tells you if anything needs special ordering, with the earliest possible date.
4. **Pick-up schedule.** Pay at an affordable price. We give you a schedule for pick-up, counselling and planning of your next treatment cycle, so you never miss a cycle.
5. **Pick up your medicine.** Collect your medicine on the scheduled date. If it is an injectable, go to Vila Central Hospital or Vanuatu Private Hospital for your chemo session.

Your doctor's role

DESIGN INSTRUCTION

- White background. Safety box style for the second paragraph.

WEBSITE COPY

Your doctor's role

Your doctor decides your treatment. We supply the medicine. We cannot choose a medicine for you or change your treatment.

If you do not yet have a prescription, please see a doctor first.

How prescription medicines are handled

DESIGN INSTRUCTION

- Soft Mint background, four icon ticks.

WEBSITE COPY

How prescription medicines are handled

- Prescription medicines need a valid prescription.
- Our pharmacist checks every prescription.
- We only supply what your doctor prescribed.
- A pharmacist explains how to take or handle your medicine.

If you need a cancer medicine

DESIGN INSTRUCTION

- White card with Care Pink left border.

WEBSITE COPY

If you need a cancer medicine

Cancer medicines must follow your doctor's prescription or treatment protocol. For your safety, we can only supply medicines that match what your doctor prescribed.

If your medicine is an injection or drip, it is given at the hospital: Vila Central Hospital or Vanuatu Private Hospital.

If you had treatment overseas and need to continue at home, bring the prescription or protocol from the overseas hospital.

If your medicine is not available in Vanuatu

DESIGN INSTRUCTION

- Sky Tint background, text link to Named Patient Supply.

WEBSITE COPY

If your medicine is not available in Vanuatu

We may be able to order it just for you through Named Patient Supply. It can take longer. We will tell you the price and expected time first.

Link: [About Named Patient Supply](#) →

Not sure what to do next?

DESIGN INSTRUCTION

- White background. Friendly text, then the Emergency box (red border) directly below it, then buttons.

WEBSITE COPY

Not sure what to do next?

Call us or send a message. Tell us what your doctor has told you, and we will explain the next steps in simple words.

In an emergency: If you feel very unwell, have a fever over 38 °C during chemotherapy, trouble breathing, or bleeding that will not stop, go to the hospital straight away. Do not wait for a reply from the pharmacy.

Intro

DESIGN INSTRUCTION

- White background, centred.

WEBSITE COPY

Our services

Everything we do is about one thing: helping people get the medicines they need.

Service 1 — Cancer medicine supply

DESIGN INSTRUCTION

- Card with Care Pink top border (flagship service).

WEBSITE COPY

One line: Cancer and chemotherapy medicines in Port Vila.

Details: Our main work. Medicines in stock, for import, or sourced on request, supplied against a prescription or treatment protocol.

Who it is for: Patients, oncologists, hospitals

How it works: Send the prescription → pharmacist check → quotation → supply

CTA: Request a Cancer Medicine

Service 2 — Treatment cycle planning

DESIGN INSTRUCTION

- Standard card, calendar icon.

WEBSITE COPY

One line: Your medicine ready for every cycle.

Details: We schedule pick-up, explain your medicine and plan the next cycle. We update supply if the protocol changes.

Who it is for: Patients on ongoing treatment

How it works: Set up with your first order, then we contact you before each cycle.

CTA: Patient Enquiry

Service 3 — Named Patient Supply

DESIGN INSTRUCTION

- Standard card, person-tag icon.

WEBSITE COPY

One line: Medicines not normally available in Vanuatu, for one named patient.

Details: We help arrange the medicine, the import approval and the paperwork.

Who it is for: Patients and their doctors

How it works: Prescription → sourcing → quotation → import → supply

CTA: Named Patient Supply Enquiry

Service 4 — Medicine sourcing and import

DESIGN INSTRUCTION

- Standard card, globe icon.

WEBSITE COPY

One line: Hard-to-find medicines, found for you.

Details: Flexible procurement through our suppliers and the wider Getmeds group. Freight costs and export papers may affect some items; we tell you first.

Who it is for: Patients, pharmacies, hospitals

How it works: Enquiry → quotation → order confirmation → sourcing → receiving → supply

CTA: Request a Quotation

Service 5 — Essential medicines

DESIGN INSTRUCTION

- Standard card, pill icon.

WEBSITE COPY

One line: Everyday and long-term medicines.

Details: Antibiotics, over-the-counter medicines, and medicines for diabetes, blood pressure, cholesterol, heart and kidney care.

Who it is for: Patients, clinics, pharmacies

How it works: Visit us or send a prescription.

CTA: Enquire About Medicines

Service 6 — Medical supplies and devices

DESIGN INSTRUCTION

- Standard card, clipboard-gear icon.

WEBSITE COPY

One line: Consumables, devices and equipment.

Details: Single-use consumables, devices for asthma, diabetes and blood pressure, medical equipment and laboratory supplies.

Who it is for: Hospitals, clinics, patients

How it works: Send your list → quotation → supply

CTA: Request a Quotation

Service 7 — Institutional supply

DESIGN INSTRUCTION

- Navy card (stands out for professionals).

WEBSITE COPY

One line: Supply for hospitals, clinics and agencies.

Details: Quotations and ongoing supply for facilities, and for overseas treatment agencies whose patients return home.

Who it is for: Hospitals, clinics, pharmacies, agencies

How it works: Product list → quotation → supply → follow-up

CTA: Healthcare Professional Enquiry

Service 8 — Basic health checks

DESIGN INSTRUCTION

- Standard card, heart-pulse icon.

WEBSITE COPY

One line: Blood pressure and blood sugar checks.

Details: Simple checks at our pharmacy. If a result needs attention, we advise you to see a doctor.

Who it is for: Members of the public

How it works: Visit during opening hours. No appointment needed.

CTA: Contact Us

WEBSITE COPY

What is Getmeds Vanuatu?

Getmeds Vanuatu is a pharmacy in Port Vila. Our main focus is cancer medicines. We also supply essential medicines, medical supplies and devices.

Where is Getmeds based?

Ground Floor, Room 1006, Golden Port, Namba 2 Area, Port Vila, Vanuatu.

What medicines are available?

Cancer medicines, supportive medicines for cancer treatment, antibiotics, and medicines for diabetes, blood pressure, cholesterol, heart disease and kidney care. We also supply medical consumables and devices. Stock changes, so please contact the Getmeds team for current availability and requirements.

What is Named Patient Supply?

It is a way to get a prescribed medicine that is not normally available in Vanuatu, ordered for one named patient. Not every medicine can be supplied this way.

Can patients request medicines directly?

Yes. Patients and families can contact us. For prescription medicines, we need your doctor's prescription.

Do I need a prescription?

Yes, for all prescription medicines. Cancer medicines must follow a doctor's prescription or treatment protocol. We only supply what your doctor prescribed.

Can doctors and hospitals contact Getmeds?

Yes. We work with doctors, hospitals, clinics, pharmacies and overseas treatment agencies. Send us your requirement and we will send a quotation.

Does Getmeds provide chemotherapy medicines?

Yes. Chemotherapy and other cancer medicines are our main specialisation. Injectable chemotherapy is given at a hospital, such as Vila Central Hospital or Vanuatu Private Hospital.

What oncology medicines are available?

We supply cancer medicines from stock, by import, or by sourcing on request. We do not list individual medicines online because stock changes. Please contact the Getmeds team for current availability and requirements.

Can patients from other Pacific Islands access Getmeds?

We are working to expand access across the Pacific and welcome enquiries from other Pacific countries. Contact us with your country and the medicine you need, and we will tell you what is possible.

How can I check medicine availability?

Send us the medicine name and prescription by phone, email or the online form. Our pharmacist will check and reply.

How does pricing work?

Prices depend on the medicine, amount and source. We give you a clear quotation before you commit. You pay nothing until you agree.

How long does supply take?

It depends on whether the medicine is in stock, needs to be imported, or must be specially sourced. We give you the earliest possible date when we quote. Please contact the Getmeds team for current availability and requirements.

What information is required?

Usually the patient's name and contact details, the prescription or treatment protocol, and the doctor's details. For imported medicines we may need more papers.

Do you deliver outside Port Vila?

You can collect in Port Vila, or ask us about delivery to your island. Medicines that need cold storage travel in monitored cold boxes.

How can I contact Getmeds?

Call +678 528 2543 (Monday to Friday, 8am to 5pm), email getmeds.vu@gmail.com, use the online form, or visit us at Golden Port, Port Vila.

Can Getmeds tell me which medicine to take?

No. Your doctor decides your treatment. Our pharmacist can explain how to take the medicine your doctor prescribed.

What should I do in an emergency?

Go to the nearest hospital emergency department or contact your treating hospital. Do not wait for a reply from the pharmacy.

Still have a question?

DESIGN INSTRUCTION

- Soft Mint card with two buttons.

WEBSITE COPY

Still have a question?

Our team is happy to help.

Contact

URL: /contact

SEO

SEO title	Contact Getmeds Vanuatu — Port Vila Pharmacy
Meta description	Contact Getmeds Vanuatu in Port Vila about cancer medicines, Named Patient Supply or other medicines. Patients and healthcare professionals welcome.
H1	Contact us
Suggested H2 sections	How can we help? · Send an enquiry · Visit or call · What happens next · In an emergency
Primary keyword	Getmeds Vanuatu contact
Secondary keywords	pharmacy Port Vila, medicines Vanuatu
URL slug	/contact

PAGE DESIGN DIRECTION

Make contacting easy in one screen. Desktop: left column (7/12) with enquiry-type cards and the form; right column (5/12) sticky contact card with phone, email, address, hours and an embedded map of Golden Port. Mobile: phone button first, then enquiry types, form, details, map. The emergency box sits at the bottom with a red border.

Heading and intro

DESIGN INSTRUCTION

- Sky Tint short hero.

WEBSITE COPY

Contact us

Tell us what you need. A member of our team will reply, and a pharmacist checks every medicine request. The phone is the fastest way to reach us.

How can we help? (enquiry types)

DESIGN INSTRUCTION

- Four selectable cards. Clicking one scrolls to the form and pre-selects the enquiry type.

WEBSITE COPY

Enquiry type	Button	Short text
Patient	Patient Enquiry	Need a medicine your doctor prescribed? Start here.
Healthcare professional	Healthcare Professional Enquiry	Doctors, hospitals, clinics and pharmacies: request a quotation.
Medicine	Medicine Enquiry	Check if we can supply a medicine and what it costs.
Named Patient Supply	Named Patient Supply Enquiry	Need a medicine not normally available in Vanuatu?

Contact form

DESIGN INSTRUCTION

- Single-column form, labels above fields, 52px inputs, helper text in grey under each label. Required fields marked *. Upload field accepts JPG, PNG, PDF up to 10MB and shows a thumbnail.
- Show a progress-free, simple form; split into two steps only if analytics show drop-off.

WEBSITE COPY

Send an enquiry

Form instructions: Fill in what you can. If you are not sure, leave it blank and we will ask you. Fields marked * are required.

Label	Helper text
I am a... *	Patient or family member / Doctor / Hospital or clinic / Pharmacy / Other organisation
Full name *	The name of the person we should contact
Patient name (if different)	Only if you are asking for someone else
Phone or WhatsApp number *	Include your country code, for example +678
Email	Optional, but helpful for sending quotations
Country *	Vanuatu or another Pacific country
Island or town	Helps us plan collection or delivery
Enquiry type *	Medicine / Cancer medicine / Named Patient Supply / Quotation / Other
Medicine name(s)	Write it as it appears on the prescription
Upload prescription or treatment protocol	A clear photo or PDF. We need this before we can supply a prescription medicine
Date needed	For example, the date of the next treatment cycle
Message	Anything else we should know
Consent *	I agree that Getmeds may use these details to respond to my enquiry. (Link: Privacy Policy)

Label	Helper text
Submit button	Send Enquiry

Message after submit: Thank you. We have received your enquiry. Our team will contact you within one working day. If your medicine is urgent, please call us.

Visit or call (contact details)

DESIGN INSTRUCTION

- Sticky white card with icons (map pin, phone, mail, clock). Phone and email are tap-to-call / tap-to-email links. Map embed below the card, 280px tall.

WEBSITE COPY

Visit or call

Address: Ground Floor, Room 1006, Golden Port, Namba 2 Area, Port Vila, Shefa, Vanuatu

Phone: +678 528 2543

Email: getmeds.vu@gmail.com (answered within one working day; do not use email for anything urgent)

Opening hours: Monday to Friday, 8am to 5pm. Closed on public holidays.

Finding us: We are on the ground floor of Golden Port in the Namba 2 area, room 1006. No stairs.

What happens next

DESIGN INSTRUCTION

- Three-step mini component.

WEBSITE COPY

What happens next

- We receive your enquiry.
- A pharmacist reviews any prescription.
- We contact you with availability, price and next steps.

In an emergency

DESIGN INSTRUCTION

- Emergency box (red border, warning icon).

WEBSITE COPY

In an emergency

Do not contact a pharmacy in a medical emergency. A fever over 38 °C during or after chemotherapy, vomiting you cannot stop, trouble breathing, or bleeding that will not stop: contact your treating hospital or go to the emergency department now.

Other reasons to get in touch

DESIGN INSTRUCTION

- Three small link cards in a row.

WEBSITE COPY

- **Report a side effect** — something happened after taking a medicine we supplied.
- **Make a complaint** — if something went wrong, we want to hear it.
- **Return or dispose of medicine** — unused cancer medicine must not go in household rubbish.

Report a Side Effect

URL: /report-a-side-effect

SEO

SEO title	Report a Side Effect — Getmeds Vanuatu
Meta description	Tell Getmeds Vanuatu about a side effect or problem after taking a medicine we supplied.
H1	Report a side effect
Suggested H2 sections	When to report · How to report · What we do next
Primary keyword	report side effect Vanuatu
Secondary keywords	medicine safety Vanuatu
URL slug	/report-a-side-effect

PAGE DESIGN DIRECTION

Simple, calm form page. Emergency box at the very top, then short text and a short form. No imagery.

Emergency notice

DESIGN INSTRUCTION

- Emergency box, top of page.

WEBSITE COPY

If the reaction is serious — trouble breathing, swelling of the face or throat, a fever during chemotherapy, or bleeding that will not stop — go to hospital now.

When to report

DESIGN INSTRUCTION

- White background.

WEBSITE COPY

Report a side effect

If you or someone you care for had an unexpected reaction after taking a medicine from Getmeds, please tell us. Also tell your doctor. Your report helps keep other patients safe.

Form

DESIGN INSTRUCTION

- Same form styling as Contact.

WEBSITE COPY

Fields: Your name * · Phone * · Patient name · Medicine name * · Date started · What happened? * · Is the patient still taking the medicine? (Yes/No) · Doctor's name · Consent *

Submit: Send Report

After submit: Thank you. A pharmacist will review your report and contact you.

What we do next

WEBSITE COPY

What we do next

A pharmacist reviews every report, contacts you if we need more details, and passes safety information to the proper health authorities where required.

Complaints and Feedback

URL: /complaints

SEO

SEO title	Complaints and Feedback — Getmeds Vanuatu
Meta description	Tell us if something went wrong with your order, medicine or service. We listen and respond.
H1	Complaints and feedback
Suggested H2 sections	How to tell us · What happens next
Primary keyword	Getmeds Vanuatu feedback
Secondary keywords	pharmacy complaints Port Vila
URL slug	/complaints

PAGE DESIGN DIRECTION

Short, respectful page. White background, three-step process component, short form (Name, Phone, Email, Order or reference, What happened, What would you like us to do, Consent).

Intro

WEBSITE COPY

Complaints and feedback

If something went wrong, we would rather hear it from you. Your feedback helps us improve.

How to tell us

DESIGN INSTRUCTION

- Three icon options in a row.

WEBSITE COPY

- Call +678 528 2543
- Email getmeds.vu@gmail.com
- Use the form on this page

What happens next

DESIGN INSTRUCTION

- Three-step component.

WEBSITE COPY

1. We confirm we have received your complaint within two working days.
2. A senior team member looks into it.
3. We contact you with what we found and what we will do.

Policies and Safety

URL: /policies-and-safety

SEO

SEO title	Policies and Patient Safety — Getmeds Vanuatu
Meta description	How Getmeds Vanuatu keeps medicines safe: prescriptions, pharmacist checks, cold storage, returns and safe disposal.
H1	Policies and patient safety
Suggested H2 sections	Prescriptions · Pharmacist checks · Storage and cold chain · Returns and disposal · Your information
Primary keyword	medicine safety Vanuatu
Secondary keywords	cold chain medicines Vanuatu
URL slug	/policies-and-safety

PAGE DESIGN DIRECTION

A reference page with a left-side in-page menu on desktop and accordions on mobile. Each policy is a short block with an icon.

Prescriptions

WEBSITE COPY

Prescriptions

Every prescription medicine needs a valid prescription from a doctor. Cancer medicines must follow a prescription or treatment protocol. We do not sell prescription medicines without one.

Pharmacist checks

WEBSITE COPY

Pharmacist checks

A pharmacist checks every prescription for the right medicine, strength and amount before supply, and explains how to take or handle the medicine.

Storage and cold chain

DESIGN INSTRUCTION

- Thermometer icon, Info box for 2–8 °C.

Storage and cold chain

Medicines are stored as the maker directs. Medicines that must stay between 2 and 8 °C are kept in monitored refrigerators and travel in monitored cold boxes, logged from supplier to patient.

Returns and safe disposal

DESIGN INSTRUCTION

- Safety box for the cancer-medicine warning.

Returns and safe disposal

For safety, we cannot resell medicines once they have left the pharmacy.

Unused cancer medicines must not go in household rubbish or down the toilet. Bring them back to us in their original pack and we will dispose of them safely.

Your information

Your information

We keep your prescription and personal details private and use them only to supply your medicine. See our Privacy Policy.

Suggested H2 sections	What we collect · Why we use it · Who we share it with · How we keep it safe · Your choices · Contact
Primary keyword	Getmeds Vanuatu privacy
Secondary keywords	patient privacy Vanuatu
URL slug	/privacy

PAGE DESIGN DIRECTION

Plain text page, narrow reading column (720px), clear H2s, last-updated date at the top. No imagery.

Policy text

WEBSITE COPY

Last updated: September 2026

What we collect

Your name and contact details, the patient's details, prescriptions and treatment protocols, the medicines you order, and your messages to us.

Why we use it

To check prescriptions, supply medicines, plan treatment cycles, contact you about your order, and meet legal and safety duties.

Who we share it with

Only people who need it to supply your medicine: our pharmacist and team, your doctor or hospital, suppliers and authorities for import approval, and delivery partners. We never sell your information.

How we keep it safe

We store records securely and limit who can see them. We keep records only as long as needed for your care and the law.

Your choices

You can ask to see or correct your information at any time.

Contact

Email getmeds.vu@gmail.com or call +678 528 2543.
